MANAGEMENT INFORMATION CIRCULAR

This management information circular (the “**Circular**”) is provided in connection with the solicitation of proxies by or on behalf of Colabor Group Inc. (the “**Corporation**”) to be used at the annual meeting of the shareholders of the Corporation (the “**Shareholders**”) to be held at 10:30 a.m. on May 4, 2021, and at any adjournment thereof (the “**Meeting**”) for the purposes set forth in the accompanying notice of Meeting (the “**Notice of Meeting**”). The Meeting will be an online-only meeting, at <https://web.lumiagm.com/466770418>. Shareholders will not be allowed to attend the Meeting in person, in order to limit the risks to the health and safety of Shareholders, employees and other stakeholders of the Corporation caused by the spread of the COVID-19 pandemic. All Shareholders will have an equal opportunity to participate to the online Meeting, regardless of their physical location.

While management intends to solicit most proxies by mail, some proxies may be solicited by telephone or in writing by employees or members of the Corporation. The cost of such solicitation will be borne by the Corporation.

The Corporation has elected to use the notice and access to deliver the Notice of Meeting, this Circular, the form of proxy, the management’s discussion and analysis and the audited consolidated financial statements of the Corporation for its financial year ended December 26, 2020 (collectively, the “**Meeting Materials**”) to Shareholders, as permitted by the Canadian securities regulatory authorities. Instead of receiving the Meeting Materials by mail, Shareholders will be able to access them online. Notice and access reduces paper and energy consumption. Shareholders will receive the Notice of Meeting in the mail detailing matters to be acted upon at the Meeting and explaining how to access and review the Meeting Materials online and how to request a free printed copy of the Meeting Materials. The Notice of Meeting will be sent to Shareholders at the expense of the Corporation. The Corporation will provide a paper copy of the Meeting Materials to Shareholders who will have given standing instructions to that effect or who will have requested them.

Unless expressly stated otherwise, the information contained in this Circular is given as at March 23, 2021, being the record date established for the Notice of Meeting.

All the amounts contained in this Circular are in Canadian dollars.

To exercise this right, a Shareholder may either insert such other person’s name in the blank space provided in the form of proxy and strike out the name of the nominee indicated therein or complete another proper form of proxy.**

A proxy can be submitted to Computershare either in person, or by mail or courier, to 100 University Avenue, 8th Floor, Toronto, Ontario, M5J 2Y1, or via the internet at www.investorvote.com. 1.4 Revocation of Proxies

A Shareholder who has given a proxy may revoke it as to any matter on which a vote shall not already have been cast pursuant to the authority conferred by such proxy and may do so by depositing an instrument in writing (including another proxy) executed by the Shareholder or by the Shareholder's legal representative duly authorized in writing deposited with the Corporation as provided above. A Shareholder may also revoke a proxy in any manner permitted by law, but prior to the exercise of such proxy in respect of any particular matter.

1.5 Voting Shares

1.5.1 Voting Shares - General Information

On any ballot that may be called for, the persons designated in the accompanying form of proxy will vote for or withhold from voting the shares of the Corporation in respect of which they are appointed by proxy in accordance with the instructions of the Shareholder indicated thereon. **In the absence of such instructions with respect to a particular resolution, the Common Shares will be voted IN FAVOUR of the resolution as indicated under the appropriate heading in this Circular.**

The form of proxy included in the Meeting Materials confers discretionary authority with respect to amendments or variations to matters identified in the Notice of Meeting, and with respect to any other matter, which may properly come before the Meeting (or any adjournment thereof). As at the date of this Circular, the management of the Corporation is not aware of any amendments, variations or other matters proposed or likely to come before the Meeting except those that are indicated in the Notice of Meeting. If any matters which are not known as at the date of this Circular should properly come at the Meeting (or any adjournment thereof), the persons named in the form of proxy will vote on such matters in accordance with their best judgment.

1.5.2 Voting by Non-Registered Shareholders

Only registered Shareholders or the persons they appoint as their proxies are permitted to vote at the Meeting. CDS & Co. is a registered Shareholder of the Corporation, which acts as a clearing agent for intermediaries (each, an "**Intermediary**") such as, among others, banks, trust companies, securities dealers or brokers and directors, administrators or managers of self-administered registered retirement savings plans, registered retirement income corporations, registered education savings plans and similar plans. In accordance with the requirements of National Instrument 54-101 – *Communications with Beneficial owners of Securities or a Reporting Issuer*, the Corporation has caused the Notice of Meeting to be distributed to CDS & Co. and the Intermediaries for onward distribution to non-registered Shareholders (the "**Non-Registered Shareholders**").

Intermediaries are required to forward the Notice of Meeting to Non-Registered Shareholders unless a Non-Registered Shareholder has waived the right to receive this type of document. Very often, Intermediaries will use service companies to forward the Meeting Materials to Non-Registered Shareholders.

Generally, Non-Registered Shareholders who have not waived the right to receive Meeting Materials will be given either:

- i) a form of proxy which has already been signed by the Intermediary (typically by a facsimile, stamped signature), which is restricted as to the number of Common Shares beneficially owned by the Non-Registered Shareholder but which is otherwise not completed; this form of proxy need not be signed by the Non-Registered Shareholder; in this case, the Non-Registered Shareholder who wishes to submit a proxy should otherwise properly complete the form of proxy and deliver it to the Corporation or its transfer agent as set out in the Notice of Meeting; or
- ii) a voting instruction form, which must be completed and signed by the Non-Registered Shareholder in accordance with the directions on the voting instruction form and returned to the Intermediary or its service

company. In some cases, the completion of the voting instruction form by telephone, the Internet, or facsimile is permitted.

The purpose of these procedures is to permit Non-Registered Shareholders to direct the voting of the shares that they beneficially own.

Shares held by Intermediaries can only be voted at the Meeting upon the instructions of the Non-Registered Shareholder. Non-Registered Shareholders should carefully follow the instructions of their Intermediary, including those regarding when and where the proxy or voting instructions form is to be delivered, as applicable.

1.6 Outstanding Shares

The Corporation is authorized to issue an unlimited number of common shares (the “**Common Shares**”) and preferred shares (the “**Preferred Shares**”). All Common Shares confer the right to one vote per Common Share. Subject to applicable law, the holders of Series “A” Preferred Shares are not entitled to vote at any meeting of the Shareholders.

As at March 23, 2021, 101,954,885 Common Shares were outstanding. The Corporation has issued one (1) Series “A” Preferred Share, which Preferred Share is held by Colabor LP. The Corporation has fixed March 23, 2021, as the record date for the purpose of determining Shareholders who are entitled to receive the Notice of Meeting. All Shareholders of record at the close of business on March 23, 2021, the record date established for the Notice, will be entitled to vote at the Meeting, or any adjournment thereof, either during the Meeting or by proxy.

1.7 Principal Shareholders

As at March 23, 2021, to the best of the knowledge of the Corporation’s management, the only persons who beneficially own or exercise control or direction over Common Shares carrying more than 10% of the voting rights attached to all Common Shares are the following:

Shareholder	Approximate number of Common Shares beneficially owned or over which control of direction is exercised	Approximate % of outstanding Common Shares
The Article 6 Marital Trust created under the First Amended and Restated Jerry Zucker Revocable Trust dated 4-2-07 (“ Zucker ”)	12,595,612 Common Shares ⁽¹⁾	12.35%
Robert J. Briscoe	12,431,527 Common Shares ⁽²⁾	12.19%

(1) Includes 11,674,152 Common Shares owned by Zucker, 921,460 Common Shares owned by Z-Holdings North ULC (“**Z-Holdings**”), an affiliate of Zucker.

(2) Includes 8,120,813 Common Shares owned by Robraye Management Ltd (“**Robraye**”), a wholly owned corporation by Robert J. Briscoe. Mr. Briscoe also holds 500,000 stock options.

SECTION 2 - MATTERS TO BE ACTED UPON AT THE MEETING

2.1 Receipt of Consolidated Annual Financial Statements of the Corporation

The audited consolidated financial statements of the Corporation for its financial year ended December 26, 2020 and the independent auditor’s report will be presented at the Meeting. The said audited consolidated financial statements and the management’s discussion and analysis of the 2020 fiscal year are available on the Corporation website at www.colabor.com and on SEDAR at www.sedar.com.

2.2 Appointment of the Auditor of the Corporation

The board of directors of the Corporation (the “**Board of Directors**”) recommends the reappointment of PricewaterhouseCoopers LLP (“**PwC**”) as auditor of the Corporation for the financial year ending December 25, 2021 and to authorize the Board of Directors to determine its remuneration.

The Board of Directors recommends to the shareholders to vote **IN FAVOUR** of the appointment of PwC as auditor of the Corporation, to serve until the next annual meeting of Shareholders or until its successor has been appointed.

The person named in the form of proxy intends to vote IN FAVOUR of the resolution appointing PricewaterhouseCoopers LLP as auditor of the Corporation to hold office until the next annual meeting of Shareholders or until its successor is appointed, and authorizing the Board of Directors to fix the remuneration of the auditor, unless the Shareholder who has given the proxy has directed that the Common Shares represented thereby will be withheld from voting in respect of the appointment of auditor.

The resolution regarding the appointment of the Corporation’s auditor must be adopted by a majority of votes cast by the Shareholders present or represented by proxy and entitled to vote at the meeting.

The aggregate fees billed by PwC to provide services to the Corporation were as follow:

	2020 (\$)	2019 (\$)
Audit fees	225,000	225,000
Audit-related fees	44,170	25,000
Tax fees	-	-
All other fees	12,070	11,700
Total	281,240	261,700

The Audit Committee has determined that PwC’s provision of non-audit services was compatible with maintaining PwC’s independence.

The nature of each category of fees is described below.

Audit Fees: Audit fees were paid for audit services.

Audit-related Fees: Audit-related fees were paid for assurance and related services that are reasonably related to the performance of the audit or review of the annual financial statements and are not reported under the audit fees item above. These services consisted primarily of accounting consultations and special audits in connection with strategic transactions.

All other Fees: Fees disclosed in the table above under the item “*All other fees*” were paid for products and services other than the audit fees and audit-related fees. These services consisted primarily of operational consulting support services.

2.3 Election of Directors of the Corporation

The Corporation currently has seven Directors. Each of the Directors of the Corporation will hold office until the next annual meeting or until his or her successor is duly elected or appointed.

Under the terms of a standby purchase and voting support agreement (the “**Standby Purchase and Voting Support Agreement**”) dated as at July 14, 2016 between the Corporation, Z-Holdings, Zucker, Robraye, Fonds de solidarité

des travailleurs du Québec (F.T.Q.) (“FSTQ”), Investissement Québec (“IQ”), CDP Investissements Inc. and Caisse de dépôt et placement du Québec (“CDPQ”) in the context of the recapitalization transactions completed on October 13, 2016 (the “Recapitalization Transactions”):

- Robraye, an affiliate of Mr. Robert J. Briscoe has the right to propose for election as director one candidate while it holds, directly or indirectly, at least 5% of the issued and outstanding Common Shares. Mr. Briscoe is Robraye’s current and proposed representative on the Board;
- FSTQ has the right to propose for election as director one candidate while it holds, directly or indirectly, at least 7.5% of the issued and outstanding Common Shares. FSTQ has confirmed to the Corporation that it will not nominate a candidate for election at the Meeting;
- IQ has the right to propose for election as director one candidate while it holds, directly or indirectly, at least 7.5% of the issued and outstanding Common Shares. Not holding the minimum number of Common Shares required in order to propose a candidate, IQ no longer has a representative on the Board;
- Zucker has the right to propose for election as director one candidate while it holds, directly or indirectly, at least 7.5% of the issued and outstanding Common Shares. Robert B. Johnston is Zucker’s current and proposed representative on the Board;
- The parties have agreed that (i) a majority of the Directors (including the above-mentioned nominees, except the nominee of Robraye if its nominee is Mr. Robert J. Briscoe who served as Executive Vice-Chairman of the Board until February 21, 2019 and as Interim President and Chief Executive Officer between August 19, 2019 and September 19, 2019) shall at all times be “independent” within the meaning of Regulation 52-110 respecting Audit Committees (“Regulation 52-110”); and (ii) all nominees shall meet the applicable qualification requirements as set out under applicable laws and rules and policies of the Toronto Stock Exchange (“TSX”).

Under the terms of a subscription agreement entered into by the Corporation and CDPQ in the context of a private placement completed as at March 4, 2013, CDPQ has the right to propose for election as director one candidate as long as it holds at least 5% of the issued and outstanding Common Shares whose appointee must be an eligible director pursuant to the *Canada Business Corporations Act*, the rules and policies of the TSX and deemed “independent” within the meaning of Regulation 52-110. Ms. Danièle Bergeron is CDPQ’s current and proposed representative on the Board.

Each of Robraye, FSTQ, Zucker and CDPQ has confirmed to the Corporation that it holds the required minimum number of Common Shares to maintain the right to propose for election one director to the Board at the Meeting. As at the date hereof, IQ confirmed that it does not hold the minimum number of Common Shares mentioned above. FSTQ has confirmed that it will not nominate a candidate for election at the Meeting.

The nominees proposed for election by each of Robraye, Zucker and CDPQ, together with the four other Directors of the Corporation elected at the Meeting, will, after their election, compose the Board of Directors of the Corporation.

Therefore, on the advice of the Corporation’s Corporate Governance Committee, it is recommended to vote **IN FAVOUR** of the election of each of the seven proposed nominees whose names are set forth below as Directors of the Corporation.

The person named in the form of proxy intends to vote IN FAVOUR of the election of the seven proposed nominees whose names are set forth below as Directors of the Corporation, unless the Shareholder who has given such proxy has directed that the Common Shares represented thereby be withheld from voting with regards to either one of the Directors.

The resolution regarding the election of each of the Directors of the Corporation must be adopted by a majority of votes cast by the Shareholders present or represented by proxy and entitled to vote at the meeting.

All Directors elected at the Meeting shall hold office until their resignation or the election or appointment of their replacement or until the close of the subsequent annual meeting of Shareholders.

The Directors of the Corporation consider that the proposed nominees will be able to serve as Directors of the Corporation but, if that would not be the case for any reason prior to the Meeting, the person named in the form of proxy reserve the right to vote **IN FAVOUR** of any other nominee so designated as a replacement, in his discretion.

The following table sets forth certain information with respect to the seven persons proposed to be nominated for election as Directors of the Corporation, including the number of securities beneficially owned or over which control or direction is exercised.

The information as to Common Shares over which the above-named individuals are beneficial owners or over which they exercise control or direction is not within the knowledge of the Corporation and has been furnished by the respective nominees individually.

To the knowledge of the Corporation, none of the foregoing nominees for election as a Director:

 - i) a cease trade or similar order, or an order that denied such company access to any exemption under applicable securities legislation for a period of more than thirty (30) consecutive days;
 - ii) after the termination of his functions in such company, a cease trade order, similar order, or an order that denied such company access to any exemption under applicable securities legislation, for a period of more than thirty (30) consecutive days due to an event that occurred while that nominee was acting in that capacity;
- b) is, on the date hereof, or has been, within the ten (10) years preceding the date hereof, a director or executive officer of any company that, while that nominee was acting in that capacity or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets; or

Corporation's Majority Voting Policy

The Corporation has adopted a Majority Voting Policy which provides that, in an uncontested election, if a director nominee has more votes “withheld” than are voted “for”, the director nominee will be considered by the Board of Directors not to have received the support of the Shareholders and such nominee will be expected to forthwith submit his or her resignation to the Board of Directors. The Board of Directors will refer the resignation to the Corporate Governance Committee for consideration.

Within 90 days following the applicable meeting of the Shareholders, the Board of Directors will determine whether to accept or reject the director resignation offer that has been submitted, on the recommendation of the Corporate Governance Committee, and will promptly publicly disclose its decision via a press release. A director who so tenders his or her resignation will not participate in any discussion or action of the Corporate Governance Committee or of the Board of Directors with respect to the decision to accept his or her resignation. In cases where the Board of Directors determines to reject the resignation, the reasons for its decision will also be disclosed. Absent exceptional circumstances that would warrant the continued service of the applicable director on the Board of Directors, the Board of Directors is expected to accept the resignation of said applicable director. If a resignation is accepted, the Board of Directors may leave the vacancy on the Board of Directors unfilled until the next annual general meeting of Shareholders, may appoint a new director whom the Board of Directors considers to merit the confidence of the shareholders to fill any vacancy, or may call a special meeting of Shareholders to consider a nominee to fill the vacant position.

SECTION 3 - REMUNERATION OF THE DIRECTORS OF THE CORPORATION

3.1 Retainer and Meeting Fees

The Corporation's Director compensation program is designed to (i) recruit and retain the most qualified people to serve on the Corporation's Board of Directors and its committees and (ii) provide appropriate compensation for the risks and responsibilities related to being an effective Director.

For the period ended December 26, 2020, each Director of the Corporation who does not receive a salary from the Corporation or of any member of its group was entitled to receive remuneration in the amount of \$30,000, calculated on an annual basis. The Directors of the Corporation were also entitled to receive an additional remuneration for attending meetings of Directors or of a committee of the Directors in the amount of \$1,500 per meeting or \$750 if it is a meeting held by phone. The Chairman of the Board of Directors was entitled to receive an additional remuneration of \$30,000, calculated on an annual basis. Furthermore, the Chairman of the Audit Committee was entitled to an additional remuneration of \$12,000 and the Chairman of the Corporate Governance Committee and the Chairman of the Human Resources Committee were entitled to an additional remuneration of \$6,000 each. The Directors are also reimbursed for out-of-pocket expenses for attending meetings. The Directors of the Corporation have received a total amount of \$344,636 during the fiscal year ended December 26, 2020. In response to the COVID-19 crisis, the Board of Directors has approved a reduction of all board fees by 25% from April 1, 2020 to June 30, 2020.

On February 26, 2021, the Board of Directors approved a new fee structure for the Directors by removing the additional remuneration of \$1,500 or \$750 for attending meetings of Directors or of a committee of the Directors and by increasing the remuneration calculated on an annual basis from \$30,000 to \$48,000. The additional remuneration for the Chairman of the Board of Directors is increased to \$35,000, the additional remuneration for the Chairman of the Audit Committee remains at \$12,000, the one for the Chairman of the Human Resources Committee is increased at \$7,000 and the one for the Chairman of the Corporate Governance Committee is set at \$5,000.

3.2 Stock Option Plan

In 2009, the Corporation adopted a stock option plan (as may be amended from time to time, the “**Stock Option Plan**”). A description of the main terms and conditions relating to the Stock Option Plan is found under section 4.3.3 of this Circular.

No options were granted to the Directors during the fiscal year ended December 26, 2020.

3.3 Deferred Share Unit Plan

In 2010, the Corporation adopted a deferred share unit plan for its Directors.

The purpose of the deferred share unit plan is to grant the Directors of the Corporation deferred share units in order to attract and retain experienced and qualified directors and link their remuneration to the Corporation's performance. A Director who participates in the plan may choose to receive all or part of the remuneration payable to him for his services as a Director in the form of deferred share units.

A Director who chooses to participate in the plan (the "**Participant**") must submit a notice to the secretary of the Corporation at least thirty (30) days before the beginning of a financial quarter of the Corporation. This choice is deemed to apply to all the financial quarters of the Corporation subsequent to submission of the notice. The choice covers the deferred remuneration of the Participant paid during the financial quarters of the Corporation following submission of the notice. The Participant may choose to receive, in the form of units, 50%, 75% or 100% of the annual remuneration payable to him as a Director, including meeting fees and any compensation which is payable to him as chair or member of a committee.

A Participant's account is credited on the last day of each financial quarter of the Corporation with a number of units determined based on the amount of the deferred remuneration payable to the Participant with respect to the financial quarter in question divided by the unit value. The unit value is the weighted average price of the Common Shares of the Corporation on the Toronto Stock Exchange during the five (5) trading days preceding the last day of each financial quarter of the Corporation.

A Participant who has units credited to his account has additional units credited every time cash dividends are paid by the Corporation on the Common Shares. The units granted under the plan are redeemable and their value is only payable when the Participant leaves office as a Director of the Corporation. A Participant who ceases to be a Director may ask the Corporation to redeem his units, at a price corresponding to the closing price of the Common Shares of the Corporation on the Toronto Stock Exchange on the last trading day preceding the redemption date, by sending a redemption notice to the secretary of the Corporation. The redemption notice must cover all the units held by the Participant when it is sent. A Participant may not sell, assign or otherwise alienate his units other than by will or in accordance with the law governing successions.

No deferred share units were granted to the Directors during the fiscal year ended December 26, 2020.

(2) Mr. Pierre Gagné ceased to be employed by the Corporation on August 21, 2020.

4.2 Governance regarding Compensation of Executive Officers

4.2.1 Composition and Mandate of the Human Resources Committee

The Human Resources Committee administers the Corporation’s executive compensation plan. The mandate of the Human Resources Committee provides that the Committee is responsible for monitoring officers’ talent, management and performance assessment, succession planning and overall compensation, and also reviewing the human resources practices of the Corporation and its subsidiaries generally. Hence, the Committee recommends the appointment of senior officers, including the terms and conditions of their appointment and termination, and reviews the evaluation of the performance of the senior officers of the Corporation and its subsidiaries, including recommending their compensation. The Board of Directors, which includes the members of the Human Resources Committee, reviews the President and Chief Executive Officer’s corporate goals and objectives and evaluates his performance in light of such goals and objectives. The Human Resources Committee has also developed a work plan that lists the duties deriving from his mandate, allowing the Committee to plan and monitor the fulfilment of his mandate.

As at the date of this Circular, the members of the said Committee are Messrs. Denis Mathieu, Robert J. Briscoe, Robert B. Johnston and Ms. Danièle Bergeron, the majority of whom are independent Directors. At no time during the year ended December 26, 2020 was any of the members of such Committee an officer or employee of the Corporation or a subsidiary of the Corporation.

All Committee members have experience in the field of executive compensation, either as a former Chief Executive Officer and/or as a senior officer of a publicly traded and/or of a global corporation. The Board of Directors believes that the Committee members possess all of the knowledge, experience and the profile needed in order to fulfill the mandate of the Committee.

4.2.2 Role of the Committee Regarding Compensation

The Human Resources Committee of the Corporation reviews and recommends to the Board of Directors all base salary changes, short-term and long-term incentive compensation and other benefits, as the case may be, for the President and Chief Executive Officer and the members of the Executive team. The Committee may invite the President and Chief Executive Officer to attend meetings to provide advice and consultation as required. However, the President and Chief Executive Officer leaves the meeting when the Committee determines his compensation in order to give members of the Committee the opportunity to have an in-camera discussion.

4.2.3 Independent External Advisors

The Corporation retained the services of Hexarem Inc. (“**Hexarem**”) during the last fiscal year to assist the Human Resources Committee in its review of the competitiveness and appropriateness of the Corporation’s compensation programs. This includes the development of a benchmarking group, a competitive analysis of the Corporation’s executives’ compensation, the establishment of total direct compensation targets and recommendations for target incentive opportunities and the design of short and long-term incentive programs.

The fees billed by Hexarem in connection with the compensation advisory services described above for the year ended December 26, 2020 were \$66,512 (\$18,338 for the year ended December 28, 2019). Apart from the compensation advisory services described above, neither Hexarem nor, to the knowledge of the Corporation, any of its affiliates, directors or officers, provides any other services to the Corporation.

4.3 Report on Executive Compensation

4.3.1 Compensation Policies for Executive Officers

The executive compensation policy as well as the guiding principles for short-term, mid-term and long-term incentive compensation are designed to:

- recognize and fairly compensate executive officers who stand out as high achievers;
- balance compensation paid with the Corporation’s financial performance and the individual performance of executives;
- maintain compensation that is competitive with the reference market;
- provide short-term variable compensation that fluctuates primarily with the achievement or surpassing of the Corporation’s annual performance targets;
- retain executive officers and encourage superior performance;
- facilitate the hiring of highly-talented external candidates in the event of an executive position vacancy.

The Corporation’s executive compensation policy is designed to offer global compensation, whenever the Corporation achieves its financial targets, that is near the median of comparable businesses to the Corporation in terms of capitalization and/or business sector. Whenever the Corporation exceeds its targets, the policy aims to provide a compensation that is superior to the median of the market reference by way of bonuses granted under the short-term, mid-term and long-term incentive plans.

The compensation policy for Corporation’s executives is determined mainly with reference to compensation for similar executive positions at Canadian businesses of comparable size and is intended to attract, motivate, retain, encourage and reward superior performance of highly skilled senior executives. The following table sets out the different remuneration components which, overall, give a remuneration package consistent with the Corporation’s remuneration philosophy. For each remuneration component, the table provides a description of the remuneration component, the eligible persons and the goals covered by the remuneration component.

- (1) Earnings before interests, taxes, depreciation and amortization.
- (2) Trigger for payment.

A significant portion of the global compensation is at risk in order to align the interests of management and the shareholders. Payments under the variable compensation plans depend on fulfillment of the goals established in the short, medium and long terms, on which management has an impact.

Each compensation component has a different function, but all elements work in concert to maximize the Corporation’s performance through individual performance defined by the achievement of specific goals.

Notwithstanding the foregoing, the policy does not restrict the Human Resources Committee’s ability to grant, or recommend to the Board of Directors to grant, as the case may be, bonuses even when specific goals have not been achieved, or to increase or decrease the amount of a bonus payment. To ensure that the Corporation provides competitive compensation to its senior officers, the Human Resources Committee reviews information from external compensation advisors and the compensation practices at other comparable entities. In addition, the Human Resources Committee may engage the services of an independent external advisor to provide advice and counsel on executive compensation matters. A compensation analysis of the executive management staff was conducted during 2020 by Hexarem for the benefit of the Corporation.

4.3.1.1 Reference market

For purposes of the analysis conducted by Hexarem, a "reference group" was defined according to one or more of the following characteristics :

- companies from various industry sectors;
- companies with revenues between \$500,000,000 and \$1,500,000,000;
- publicly traded companies preferably; and, preferably;
- companies whose head office is located in the province of Quebec.

The companies that were then selected are the following:

BMTC Group	Dynamite Group	Richelieu Hardware Ltd.
Camso	Innergex Renewable Energy	TVA Group Inc.
Intertape Polymer Group Inc.	Yellow Pages Limited	Fednav Limited

IPL Plastics Inc.

4.3.2 Compensation Structure for 2020

4.3.2.1 Annual Base Salary

Salaries are determined by evaluating the responsibilities and the influence of each executive's position within the Corporation as well as the executive's experience, knowledge and performance. Executive salaries are reviewed annually and adjusted, as appropriate, based on the Corporation's financial capacity and financial performance. In response to the COVID-19 crisis, the base salary of certain Named Executive Officers was reduced by 25% from April 1, 2020 to July 5, 2020.

4.3.2.2 Short-Term Incentive Compensation

The short-term incentive compensation plan aims to enhance the link between pay and performance by:

- Aligning the financial interests and motivations of the Corporation's management team and employees with the annual financial returns of the Corporation;
- Motivating management to work towards the annual performance objectives of the Corporation;
- Motivating executives to achieve or exceed their personal annual performance objectives;
- Providing greater cash compensation in cases where superior financial performance in excess of target objectives is attained; and
- Jeopardising part of the total cash compensation in cases where performance objectives are not attained.

Actual bonuses paid depend on the executive's target percentage of base salary and reflect the achievement of financial goals set by the Human Resources Committee and approved by the Corporation's Board of Directors, as well as the actual performance of the executive officer throughout the year.

The percentage of bonus payable is subject to the achievement of results calculated on the basis of performance measures determined for the year. If a target performance level for one specific performance measure is reached, the target bonus level for that specific performance measure is payable in accordance with the parameters set out in the compensation plan. If none of the performance measures levels are reached, no bonus will be payable, except the personal contribution performance measure if it has been reached. Notwithstanding the performance measures results, the Board of Director may decide, on the recommendation of the Human Resources Committee, to grant a discretionary bonus to some executive officers to recognize their efforts despite certain performance measures not having been met due to exceptional circumstances.

For the 2020 fiscal year, the Corporation consolidated EBITDA has not been reached. However, a bonus was calculated in accordance with the terms of the short-term incentive plan for the individual objectives portion that were achieved in full or in part for the five Named Executive Officers employed by the Corporation as at December 26, 2020. In addition, discretionary bonuses were also awarded for efforts made in 2020 related to the exceptional circumstances of COVID-19.

The following table presents the targets, performance measures and their allocation and the percentage of the level achieved to calculate the Named Executive Officer bonus. The bonus granted for the year ended December 26, 2020 is set out in the table below. Named Executive Officers who were no longer employed by the Corporation on December 26, 2020 did not receive any performance-based bonuses.

(2) For the period during which Ms. Marie-France Laberge served as interim chief financial officer, the bonus target was 50%.

(3) For fiscal year 2020, in addition to bonuses related to individual contribution, discretionary bonuses were paid to these Named Executive Officers.

4.3.3 Stock Option Plan of the Corporation

The following is a summary of the principal provisions of the Stock Option Plan.

The Corporation has approved, in 2009, a Stock Option Plan, which authorizes the Board of Directors to issue options to acquire common shares to its directors, officers and employees and certain of its consultants.

The Stock Option Plan is intended to provide an incentive to the employees, officers, directors and certain consultants of the Corporation and its related entities to achieve the longer term objectives of the Corporation, to give suitable recognition of the ability of such persons who contribute materially to the success of the Corporation and to attract and retain persons of experience and ability, by providing them with the opportunity to acquire an increased proprietary interest in the Corporation. Under the Stock Option Plan, the Board of Directors is authorized to designate the recipient of options to acquire Common Shares. Eligible recipients currently include any director, officer and employee and certain consultants of the Corporation or of an entity that is controlled by the Corporation (“**Eligible Participants**”).

The maximum number of Common Shares that may be issued pursuant to options granted under the Stock Option Plan shall be equal to 10% of the number of the Common Shares outstanding at the time of grant, and the total number of Common Shares set aside for the granting of options in favour of one individual shall at no time represent more than 5% of the issued and outstanding Common Shares. Given that the Stock Option Plan does not have a fixed

maximum number of Common Shares issuable thereunder, it will have to be re-approved by the shareholders of the Corporation every three (3) years, which shall be at the shareholders annual meeting for 2022 fiscal year.

The number of Common Shares issuable to insiders in the aggregate, at any time, pursuant to the Stock Option Plan and any other security based compensation arrangement cannot exceed 10% of Common Shares issued and outstanding. In addition, the number of Common Shares issued to insiders within any one (1) year period pursuant to the Stock Option Plan and any other securities based compensation arrangement cannot exceed 10% of Common Shares issued and outstanding. Finally, the number of Common Shares issuable under the Stock Option Plan or any other security based compensation arrangement to directors who are not officers, employees, or consultants or one of its related entities at the time of such grant, cannot exceed 3% of the issued and outstanding Common Shares.

No option may be granted under the Stock Option Plan to a director who is not an employee of the Corporation if, at the time of grant : (i) the aggregate number of Common Shares reserved for issuance to all non-employee directors under the Stock Option Plan and all other security-based compensation arrangements of the Corporation was greater than 1% of the total number of Common Shares then issued and outstanding; and (ii) the aggregate value of options granted to non-employee directors during the Corporation's financial year exceeded \$100,000; (iii) the aggregate value of the options and, in the case of Full Value Awards, the grant date value of Common Shares or awards granted to the non-employee director during the Corporation's financial year exceeded \$150,000; provided that no account shall be taken of any Full Value Awards that the non-employee director elects to receive, at his or her discretion, in lieu of cash compensation of the same value from the Corporation foregone for the purposes of the foregoing \$150,000 limit, and further provided that the foregoing limit shall not apply to any single initial award to a new Director who would become a non-employee director upon joining the Board as compensation for serving on the Board of Directors.

The price at which the Common Shares may be subscribed for pursuant to any option granted under the Stock Option Plan shall be the Market Price. For purposes of the Stock Option Plan, "Market Price" shall mean: (i) the volume weighted average trading price for the Common Shares during the five (5) trading days on the TSX prior to the applicable date of grant, or (ii) if there was no closing price for the Common Shares on any trading day during that five (5) trading days period on the TSX, then the average of the bid and ask quotations for the Common Shares for such day shall be used for the purpose of determining the Market Price.

Unless the Board of Directors determines otherwise on the date of grant, any option granted will be vested and become exercisable by the Eligible Participant who has been granted an option (an "**Optionee**") in four equal tranches on the first, second, third and fourth anniversary of date of grant. The Optionee may then exercise any vested option at any time not later than the tenth anniversary of the date of grant or such earlier date fixed by the Board of Directors (the "**Expiry Date**") and all unexercised options shall expire and terminate and be of no further force or effect whatsoever following such Expiry Date.

The Stock Option Plan provides that, if the date on which an option expires occurs during a blackout period or within ten (10) business days after the last day of a blackout period, the date of expiry of such option will be the last day of such ten (10) business day period.

None of the Optionees shall receive any loan or other financial assistance to facilitate the exercise of options.

If approved by the Board of Directors, in lieu of paying the applicable exercise price, an Optionee may elect to acquire the applicable number of the Common Shares determined by subtracting the applicable exercise price from the Market Price of the Common Shares on the date of exercise, multiplying the difference by the number of the Common Shares in respect of which the option was otherwise being exercised and then dividing that product by such Market Price.

In the event of the death of an Optionee, vested options held by such Optionee may be exercised by the personal representatives of the Optionee until the earlier of the Expiry Date of such options or one hundred and eighty (180) days from the date of death, following which the options will terminate.

In the event that the employment of an Optionee is terminated without cause, including a constructive dismissal, or an Optionee's contract as a consultant is terminated by the Corporation before its normal termination date without cause, any or all options held by such Optionee that are vested which have not been previously exercised may be exercised

at any time during a period of one hundred and eighty (180) days following the date of termination of employment or of the applicable contract. However, the Board of Directors may, in its discretion, amend the terms of any option held by such Optionee to permit such Optionee to exercise any or all such options as if such Optionee's employment had not been terminated.

If an Optionee attains retirement age fixed by the Corporation or an Optionee's employment or service ceases due to permanent disability, only the portion of the options that is exercisable at the date of retirement or cessation may be exercised by the Optionee during the period ending twelve (12) months after the date of retirement or cessation, after which period all options expire.

In the event that a non-employee director ceases to act as a director of the Corporation, such non-employee director may exercise, at any time during the one hundred and eighty (180) days following the announcement of the quarterly results of the Corporation after the date such director ceases to act as such and prior to the Expiry Date, any or all of his options that are vested on the date he ceased to act as a director and not previously exercised except that if a director is removed by the shareholders of the Corporation, the options may be exercised up to the first business day following the resolution of the shareholders approving such removal.

Finally, in the event the employment of an Optionee is terminated for cause or if an Optionee resigns his or her office or employment, or an Optionee's contract as a consultant terminates at its normal termination date, the options held by such Optionee which have not been previously exercised will immediately expire upon the delivery of a written notice of termination for cause by the Corporation to the Optionee or upon the delivery of the resignation notice by the Optionee to the Corporation or at the normal expiration date of the Optionee's contract, as the case may be.

Notwithstanding the foregoing, the Board of Directors always retains the discretion to permit the exercise of any or all options held by an Optionee in the manner and on terms it authorizes, provided it shall not authorize the exercise of an option after its Expiry Date.

The Optionee's rights with respect to an option granted under the Stock Option Plan are not assignable or transferable by the Optionee or capable of being the subject of any other alienation, sale, pledge, hypothec or other encumbrance by an Optionee other than a transfer to the Optionee's legal personal representative(s) by will or by law and other than a transfer pursuant to an order of a court of competent jurisdiction and in other limited cases.

In the event of a "Change of Control" of the Corporation, all unexercised options granted under the Stock Option Plan which are not vested at such time shall become immediately vested on the business day before the date the applicable transaction is determined to have occurred to allow the Optionees to participate in said transaction. Upon any such acceleration of the vesting of any or all outstanding options immediately prior to the completion of any such transaction which constitutes a Change of Control, the Board of Directors may determine that all such outstanding options will be purchased by the Corporation or a related entity for an amount per option equal to the "Transaction Price" (as defined in the Stock Option Plan), less the applicable exercise price (except that where the exercise price exceeds the Transaction Price, the amount per option for such options will be \$0.01), as at the date such transaction is determined to have occurred or as at such other date prior to the transaction closing date as the Board of Directors may determine.

The Board of Directors may, at any time and from time to time, amend, suspend or terminate the Stock Option Plan, provided that no such amendment, suspension or termination may be made without obtaining any required approval of any regulatory authority or stock exchange or materially prejudice the rights of any Optionee under any option previously granted to the Optionee without the consent or deemed consent of the Optionee.

Without limiting the generality of the provisions of the Stock Option Plan, the Board of Directors may, without the approval of the Shareholders, make amendments to the Stock Option Plan for any of the following purposes:

- changing the eligibility for and limitations on participation in the Stock Option Plan;
- changing the terms on which options may be granted and exercised including, without limitation, the provisions relating to exercise price, vesting, expiry, assignment and the adjustments to be made pursuant to the Stock Option Plan;

- making any addition to, deletion from or alteration of the provisions of the Stock Option Plan that are necessary to comply with applicable law or the requirements of any regulatory authority or stock exchange;
- correcting or rectifying any ambiguity, defective provision, error or omission in the Stock Option Plan; and
- changing the provisions relating to the administration of the Stock Option Plan.

If any such amendment would lead to a significant or unreasonable dilution of the outstanding Common Shares or provide additional material benefits to insiders, approval of the Shareholders must be obtained.

In addition to the adjustments that may be made pursuant to the provisions of the Stock Option Plan, the Board of Directors may also, at any time and from time to time, without the approval of the Shareholders, amend any term of any outstanding option (including, without limitation, the exercise price, vesting and expiry of the option), provided that:

- any required approval of any regulatory authority or stock exchange is obtained;
- if the amendments would reduce the exercise price or extend the Expiry Date of options (except as otherwise specifically provided for in the Stock Option Plan), approval of the Shareholders must be obtained (excluding the votes of the Common Shares held directly or indirectly by insiders that would benefit from such amendment);
- the Board of Directors would have had the authority to initially grant the option under the terms as so amended; and
- the consent or deemed consent of the Optionee is obtained if the amendment would materially prejudice the rights of the Optionee under the option.

Notwithstanding any other term or condition of the Stock Option Plan, none of the following amendments may be made to the Stock Option Plan without first obtaining the approval of the Shareholders:

- an increase in the maximum number of Common Shares that may be (i) issued to insiders within any one (1) year period; or (ii) issuable to insiders, at any time under the Stock Option Plan, or when combined with all of the Corporation's other security based compensation arrangements, which could exceed 10% of the Common Shares issued and outstanding, respectively;
- an increase to the maximum percentage of the Common Shares issuable upon the exercise of options as currently provided for in the Stock Option Plan;
- the addition of any provision that allows for the exercise of options without cash consideration, whether the optionee receives the intrinsic value in the form of Common Shares or cash, and where a deduction may not be made for the number of Common Shares originally underlying the options;
- the addition of any provision to permit transfers or assignment to any person not currently permitted under the Stock Option Plan;
- any amendment to increase the value of options granted or to remove or increase the percentage limit relating to Common Shares issuable, in each case, to non-executive directors; and
- any amendment to the amending provisions set forth in the Stock Option Plan.

During fiscal year ended December 26, 2020, no options were granted under the Stock Option Plan.

4.3.4 Long-term incentive plan

No stock options were granted under the Stock Option Plan which had different vesting conditions than those described in Section 4.3.3 (the “**Performance Options**”) during fiscal year ended December 26, 2020.

During 2016 and 2018, Performance Options were granted and their vesting was conditional upon fulfilling the cumulative consolidated EBITDA targets for the financial years between the date of grant and a specified vesting date. In the event that the financial objective was not achieved on a target vesting date, the portion of Performance Options that should have vested on such target vesting date was deferred to the next vesting date and such Performance Options vested only if the cumulative consolidated EBITDA objective defined on such new target vesting date was achieved.

On February 21, 2019, the Board of Directors, upon recommendation of the Corporate Governance and Human Resources Committee has approved the abolition of vesting conditions based on the achievement of cumulative consolidated EBITDA targets. Accordingly, the vesting condition of Performance Options based on the achievement of cumulative consolidated EBITDA targets has been abolished, and the Performance Options now vest over time.

The number of Performance Options granted to each Named Executive Officer was calculated based on an annual compensation target equivalent to the value of the current salary of such Named Executive Officer, taking into account an estimation of the increase in the stock price over a five-year period significantly higher than would be estimated under the Black-Scholes or binomial model.

4.3.5 Performance-Based Incentive Stock Plan

In 2010, the Corporation adopted a share-based incentive plan related to performance designed to compensate officers and key employees of the Corporation who contribute in particular to the creation of financial value for the Corporation and its Shareholders. On March 4, 2021, the Corporation terminated the share-based incentive plan related to performance.

The plan is not dilutive for Shareholders of the Corporation. Thus, the plan does not require the issue of Common Shares from the treasury of the Corporation and no treasury Common Shares are reserved for the purpose of the plan.

The Board of Directors of the Corporation designates the eligible persons to whom it awards performance-based shares (“**PBS**”) and the number granted. The Board of Directors of the Corporation determines, at its complete discretion, the timing of each award, the award date, the vesting date (which may not exceed three (3) years after the award date), the vesting schedule, the performance goals to be reached to be eligible to acquire PBS and any other terms applicable to the PBS granted.

When PBS are granted to an eligible person, the Corporation gives him a PBS agreement bearing the award date which contains the terms of the PBS. When the eligible person remits this signed agreement to the Corporation, she becomes a holder of PBS under the plan and, provided they are acquired, she has the right to receive the Common Shares covered by the PBS on the terms and conditions set forth in the PBS agreement and the plan.

PBS granted under the incentive plan cannot be assigned or transferred, other than to a personal representative of a deceased eligible person.

PBS will be granted to eligible persons at the complete discretion of the Board of Directors of the Corporation.

The Board of Directors of the Corporation determines the period during which PBS may vest, which may not exceed three (3) years following the calendar year during which the PBS were awarded. Each award of PBS is subject to certain award terms, and in particular performance criteria. These conditions are determined by the Board of Directors of the Corporation and are communicated to the eligible person in the PBS agreement.

The acquisition of PBS is done according to the range of performance of average growth rate over three (3) years of income before taxes (“**Average GIBT**”) per share of the Corporation. The range of performance and the percentage of acquisition are :

Acquisition Levels	Performance Targets
0%	Average GIBT \leq 5%
50%	Average GIBT = 5%
100%	Average GIBT = 8%
150%	Average GIBT \geq 14%

There is correlation between the acquisition levels and the performance targets.

As soon as possible following the award of PBS and unless the Board decides otherwise, the Corporation gives the trustee, in accordance with the trust deed, instructions to purchase on the free market a sufficient number of Common Shares to reflect the maximum number of Common Shares which can be given to holders of PBS in the event the “vesting percentage” relating to a PBS stipulated in an acquisition schedule exceeds 100%. However, the Corporation’s instructions may provide for the purchase of a lower number of Common Shares if the trust fund is made up of Common Shares which cannot and will not be acquired under a PBS agreement following the loss of eligible person status or the expiry of PBS due to the failure to achieve the performance goals stipulated in the PBS agreement or for other reasons.

Unless the Board of Directors of the Corporation decides otherwise, the participation of an eligible person in the incentive plan will terminate forthwith if: (i) he or she resigns, or (ii) his or her employment ends for a serious reason, in which case all the PBS in the eligible person’s account which are not vested will be forfeited.

The Board of Directors of the Corporation has the power to amend the incentive plan as needed provided, however, that:

- a) the amendment does not affect the rights of eligible persons with respect to the PBS previously awarded, other than as allowed under the incentive plan;
- b) the amendment has been approved by the regulatory authorities, if required.

The Corporation pays all the administrative costs related to the plan.

No PBS were granted during the fiscal year ended December 26, 2020.

4.3.6 Employee Stock Purchase Plan – Actionnariat +

In 2010, the Corporation adopted a stock purchase plan for employees, amended in 2014, for the purpose of allowing permanent employees of the Corporation to acquire an interest in the Corporation so they can participate in its growth.

An employee who wishes to participate in the plan must fill out and give the Corporation a form indicating the amount of contributions he wishes to make during each pay period. Under the terms of the plan, an employee may allocate between 1% and 10% of his annual basic salary during a given year to the purchase of Common Shares of the Corporation. The Corporation deducts the employee’s contributions from his pay and gives them to a trustee on behalf of the employee. The trustee then purchases Common Shares of the Corporation on behalf and in the name of the employee. When an employee makes a contribution, the Corporation gives the plan trustee, for and on behalf of the employee, a contribution by the Corporation in an amount equal to 15% of the employee’s contribution, but up to \$3,000 per year. However, the Common Shares purchased with contributions of the Corporation are subject to a minimum one (1) year holding period as at the date Common Shares are purchased by the trustee and, accordingly, are not vested until that date. The Corporation pays all the administrative costs related to the plan.

4.3.7 Share Ownership

The Board of Directors recommends that its Named Executive Officers hold a certain number of Common Shares of the Corporation. This recommendation was established with the objective of achieving a better alignment between the interests of management and Shareholders. Thus, it is recommended that the Named Executive Officers maintain certain levels of share ownership in the Corporation based on their respective position and compensation as indicated

in the table below. The Named Executive Officers have not limit of time to acquire the recommended number of Common Shares. The Named Executive Officers are also required to inform the Corporation if they intend to exercise stock options or sell Common Shares issued by the Corporation on the market.

Name	Share Ownership Recommendation	
	Multiple of Base Salary or Number of Common Shares ⁽¹⁾	Number of Common Shares held on March 23, 2021 (#)
Louis Frenette President and Chief Executive Officer	1.5 X	1,000,000

Daniel Valiquette Vice President – Centralized Negotiations and Private Label	0.5 X	-
Elisabeth Tremblay Vice President – Human Resources and Communications	0.5 X	37,000

(1) Based on the market price of the Common Shares at the time of their purchase.

(2) The share ownership recommendation is not applicable to the Corporate Controller and Interim Chief Financial Officer.

4.3.8 Policy regarding Prohibited Transactions

The Common Shares held by the Named Executive Officers cannot be associated with any form of hedging or other transactions with the purpose of reducing risks associated with these assets.

4.3.9 Incentive Plan Awards

The following table shows, for each Named Executive Officer, all the outstanding awards under the Stock Option Plan at the end of the last fiscal year which have not yet been exercised, including those awarded previously, but excluding awards that have been cancelled as at March 23, 2021.

Name and Title	Option-Based Awards

- (1) The value of unexercised in-the-money option as at the end of the fiscal year represents the difference between the closing price of Common Shares on December 26, 2020 on the Toronto Stock Exchange (\$0.73) and the exercise price. These options have not been, and may never be, exercised, and actual losses or gains, if any, will depend on the value of the Common Shares on the date the options are exercised.
- (2) With the exception of the Performance Options granted in 2016, the option-based awards granted to NEOs in accordance with the Stock Option Plan vest in four equal tranches on the first, second, third and fourth anniversary of date of grant. Considering that the performance targets condition has been abolished, the Performance Options granted to Mathieu Dumulong (254,630 Performance Options) on December 14, 2016 as amended on February 21, 2019, now vest over time for the years 2019 to 2021.
- (3) Mr. Pierre Gagné was granted 300,000 options on May 14, 2019 which have been cancelled following his departure.

4.3.10 Incentive Plan Awards – Value Vested or Earned during the Year

The following table shows, for each Named Executive Officer, the value vested or earned under the share-based awards and the share-based options and the value of the compensation earned under the non-equity incentive plan during the fiscal year ended December 26, 2020.

Name and Title	Awards – Value vested during the Year (\$)	Non-equity incentive plan compensation – Value earned during the Year (\$)

- (1) Mr. Pierre Gagné is no longer an employee of the Corporation since August 21, 2020.

4.3.11 Benefits and Perquisites

The executive benefits program includes life, disability, medical, hospital room and dental insurance. The benefits program for Executive Officers is similar to the benefits program of non-union employees, except that upper limits for payable amounts profit to the Executive Officers. Perquisites consist, notably, of automobile expenses. These benefits, upper limits and perquisites are designed to be competitive overall with equivalent positions in comparable North American organizations.

4.3.12 Retirement Benefits

The President and Chief Executive Officer received an amount equal to the maximum contribution to a registered retirement savings plan ("RRSP") permitted by applicable law.

The former Senior Vice President and Chief Financial Officer, the Vice President – Sales, the Vice President – Centralized negotiations and Private Label and the Vice President – Human Resources and Communications, received, in 2020, an amount equal to 7% of their base annual salary, allocated between a deferred profit-sharing plan ("DPSP") up to the maximum amount legally allowed, and a RRSP.

The Corporate Controller and Interim Chief Financial Officer received, in 2020, an amount equal to 5% of her base annual salary allocated to the DPSP.

The following table sets out information relating to the Corporation's DPSP, being one of the pension plans established by the Corporation. The compensatory changes result from employer participation in the DPSP during the year. The additional variance between the value at the end of the year and that from the beginning of the year is due to gains on investments.

Name and Title	Value accrued at the beginning of the financial year (\$)	Payout amount (\$)	Value accrued at the end of the financial year (\$)
Louis Frenette President and Chief Executive Officer	-	27,230	27,230

- (1) The option-based awards have been evaluated according to the binomial model, with the same assumptions as those used for the Corporation's financial statements. For the acquisition terms, see "Long-Term Incentive Plan". This estimated value does not represent a cash amount received by a Named Executive Officer. These options have not been, and may never be, exercised, and actual losses or gains, if any, will depend on the value of the Common Shares on the date the options are exercised. Accordingly, the total compensation amount set out above does not represent the actual compensation paid to and received by the Named Executive Officer.
- (2) The term "All Other Compensation" represents perquisites and other personal benefits.

4.5 Equity Compensation Plan Information

The following table shows the Corporation's current equity compensation plans as at December 26, 2020:

For fiscal year 2019, the number of options granted being 2,215,000 is divided by the weighted average number of shares outstanding during fiscal year 2019, being 101,346,836. For fiscal year 2018, the number of options granted being 1,000,000 is divided by the weighted average number of shares outstanding during fiscal year 2018, being 101,177,944.

directors. However, certain parameters can be found in the mandate of the Board of Directors, which is attached hereto as Schedule "B". 12. Consideration of the Representation of Women and Designated Groups in the Director Identification and Selection Process

Disclose whether and, if so, how the board or nominating committee considers the level of representation of women on the board in identifying and nominating candidates for election or re-election to the board. If the issuer does not consider the level of representation of women on the board in identifying and nominating candidates for election or re-election to the board, disclose the issuer's reasons for not doing so.

Disclose whether or not the board of directors or the nominating committee considers the representation of designated groups within the board in seeking out and selecting candidates for election as directors for initial or new terms and, if so, how, or, if the board or committee does not consider such representation, describe the reasons why.

13. Consideration Given to the Representation of Women and Designated Groups in Executive Officer Appointments

Disclose whether and, if so, how the issuer considers the level of representation of women in executive officer positions when making executive officer appointments. If the issuer does not consider the level of representation of women in executive officer positions when making executive officer appointments, disclose the issuer's reasons for not doing so.

Disclose whether or not the Corporation takes into account the representation of the Designated Groups in making appointments to senior management positions and, if so, in what manner or, if the Corporation does not take such representation into account, a statement of the reasons therefor.

When a Director must be appointed, the Board of Directors reviews, following the recommendation formulated by the governance committee, the qualifications, experience and expertise of the members of the Board of Directors to determine its needs and complementary competencies and draw a list of candidates that have the required qualifications, experience and expertise. At the present time, a woman sits on the Board of Directors. The Board of Directors takes into account the diversity of its candidates in the context of its Director selection and replacement process. In the case of the recruitment of a new Director, the presence of female candidates and candidates from other designated groups and other factors relating to diversity, including the candidates' qualifications, experience and expertise are taken into consideration. The Board of Directors looks for qualified people to be Directors. For this purpose, the Board of Directors takes into account the previously outlined criteria in its nomination process which are mainly as follows:

- the qualifications, experience, expertise and history that complement those of the Directors in place;
- the diversity of the candidate and the manner in which such candidate would fill a need within the Board of Directors.

The Corporation is constantly looking to integrate women and other members of Designated Groups in executive officer positions, while taking into account the required expertise and skills. When the Corporation retains the services of an external recruitment agency, it requires that the agency provides a diverse pool of candidates. There are currently three female executive officers of the Corporation, representing 38% of the executive officers.

14. Issuer's Targets Regarding the Representation of Women and Designated Groups on the Board and in Executive Officer Positions

- a) For purposes of this Item, a "target" means a number or percentage, or a range of numbers or percentages, adopted by the issuer of women on the issuer's board or in executive officer positions of the issuer by a specific date.
- b) Disclose whether the issuer has adopted a target regarding women on the issuer's board. If the issuer has not adopted a target, disclose why it has not done so.
- c) Disclose whether the issuer has adopted a target regarding women in executive officer positions of the issuer. If the issuer has not adopted a target, disclose why it has not done so.
- d) If the issuer has adopted a target referred to in either b) or c), disclose
 - (i) the target, and
 - (ii) the annual and cumulative progress of the issuer in achieving the target.

For each of the designated groups identified under the definition of "designated groups" in the *Employment Equity Act (Canada)*, disclose whether or not the Corporation has adopted a target in the form of a number or percentage, or range of numbers or percentages, for members of such groups to serve as directors on the Board of Directors or as executive officers by a specified date and, if so, the number or range of numbers or percentages:

- (i) the target for each of the groups and the progress made towards achieving the target during the year and since its adoption,
- (ii) for each of the groups for which no Target has been adopted, an indication of the reasons why the Corporation has not adopted a Target.

The Board of Directors has not adopted any guidelines on diversity within the Board of Directors, but hopes that eventually at least 25% of the Board of Directors will be composed of women within the next five (5) years, of which at least 50% of the appointments among the seats of independent members (who are not appointed by the shareholders as mentioned in Section 0 of the Circular) from now until the 25% female representation is reached.

The Corporation fully subscribes to the concept of diversity in the workplace, in particular male-female diversity. However, the Corporation has not fixed a specific representation target, but takes diversity into account in the recruitment process and the promotion of employees.

The Corporation believes that diversity is adequately considered in its nomination and hiring process and that a numerical target would deprive it of the flexibility to select the best possible candidates based on a range of criteria.

The Board of Directors has not adopted measurable goals for diversity and inclusion of members of each of the designated groups on the Board of Directors.

The Corporation believes that diversity is appropriately considered in its nomination and hiring process and that a numerical target would deprive it of the flexibility to select the best possible candidates based on a range of criteria.
